What does the Bible say about the Silver Cord in Ecclesiastes 12:6?

In most reflections of this energetic body a thin silvery strand can be observed that connects to the earthly self.

The Silver Cord and the Near

It was then I heard actual words.

Silver cord

However, the Silver Cord is different as it has to remain intact and connected to the auric fields otherwise your soul will lose its anchoring and you will experience death. This is the only place in the Bible this term is used.

This was the sizable Glacial Boulder that was believed to have been left behind by a glacier since its composition was nothing like the bedrock of the canyon area. Fortunately, in order to experience Silver Cord Cascade, I only had to hike a mile in each direction from the Glacial Boulder Trailhead. And the cistern is the left ventricle of the heart, and the wheel seems to be the great artery, which is fitly so called, because it is the great instrument of this circulation. Harvey; but it seems by this it was well known by Solomon; now, whenever this wheel is broken, the pulse stops, the blood ceases to circulate, and death follows.

Ecclesiastes 12.6: What is the 'silver cord'?

That makes much more sense in the context of the book as a whole than a reference to anatomy that the people of the time likely didn't understand. The visions continued to expand until I felt as though I was looking at the micro and macro universe simultaneously. The Silver Cord and the Near

The field must be re-possessed. It is eternal and unbreakable as Twin Flames share a Chakra system. The silver cord tethers the spirit to the body, and may very well function as an umbilical cord from which your body is quickened by the spirit.

Silver Cord Cascade

Verses 3 - 6 compare the aging body to a house where the keepers are the hands that become paralytic and shaky; the strong men are legs that begin to bow and no longer hold up the body; the grinders are teeth that have decayed with age, and can no longer chew strong meat; the windows are the eyes that dim and can no longer see well; the doors being shut in the streets are the lips and mouth which can no longer swallow; and the sound of grinding low is the lost teeth, and inability to chew properly; rising up at the sound of a bird is the inability to sleep soundly being disturbed at the least sound; the daughters of music being brought low is the weak and feeble voice of old age. I see in all of this that God has given me wealth - an existence - for an appointed time, after which all will change.
