On the interplay between academic achievement and educational identity: A longitudinal study

Rebel with a cause: Personal significance from political activism predicts willingness

Filesize: 50.44 MB

to self-sacrifice. There was a random-assignment between-participant experimental manipulation at T1a that aimed to induce a self-transcendent positive, a self-focused positive, or a neutral emotional state.

Ethnic identity and self

Impacts First, the data on maternal transition to working when their children are entering adolescence provides empirical support for the idea that parents need to stay emotionally available despite less physical availability. However, establishing a strong, self-chosen, positive, and flexible occupational identity appears to be an important contributor to occupational success, social adaptation, and psychological well-being. Oakley A, Strange V, Bonell C, Allen E, Stephenson J, and the RIPPLE Study Team: Process Evaluation in Randomised Controlled Trials of Complex Interventions.

Modes of personal identity formation: A preliminary picture from the lifespan perspective

Data Analysis Attrition and missing data were analysed using a multifaceted approach. The work approaches our current goals but we have yet to find a paper that quantitatively tests our core thesis, which recognizes the variety of reasons that activists engage in their activism i.

Ethnic identity and self

In line with our expectations, the results of the cross-lagged model confirmed that cheating behaviour influenced Hypothesis 5 and sustained

Hypothesis 6 MD over time. With their 167 T1 counterparts one per individual, these 258 follow-up assessments then became the data used in the present investigation. The biographical consequences of protest and activism: A systematic review and a new typology.

When does activism benefit well

The subscale included ten Likert-type items that each asked how much one felt a set of three closely related negative emotions in the past week. To concretize this process, we set as a first goal jointly writing the present position paper to structure and support our common work. *Journal of Applied Social Psychology*, 36, 1701—1722.
