## Orde Baru

The orientation data acquired from Trench 1 PCT1 and Trench 2 PCT2 suggests that, at least in this area, the orientation of the mineralised zones corresponds well with the regional structural grain i.

## INDEPENDENT TECHNICAL REPORT

In particular, there are often many more intrusives present than indicated on the existing maps.

## Ecology and Society: Environmental and Social Impacts of Oil Palm Plantations and their Implications for Biofuel Production in Indonesia

Once negotiations are successfully completed, the government should release the land gradually, making the availability of additional land for plantations contingent upon satisfactory development of oil palm on the first concession.

## Ecology and Society: Environmental and Social Impacts of Oil Palm Plantations and their Implications for Biofuel Production in Indonesia

Using the ratio of biofuel production to total oil production, industry insiders indicate that biofuels currently account for approximately 6. Hole locations for this drilling are unavailable.

## Global Demand for Natural Resources Eliminated More Than 100,000 Bornean Orangutans

Male migration and the feminization of agriculture means women need to access land for food production. There is no way to hold back water.

## **Orde Baru**

. WFS 2010-9 Water Quality Impairments in Iowa, 2010, 2 p.

## **Carbon storage potential in degraded forests of Kalimantan, Indonesia**

Note that the dominant J1 joints appear to have rotated West by 30° relative to PCT1 and the J2 joints rotated east 10°. His wife had dried out the palm chaff to use for lighting a cooking fire.
