Policy Research — Who Needs It?, Governance

In attempting to understand the relationship between the creation of knowledge and its use by policymakers, it is essential to understand the needs and behavior of politicians, the pressures upon their time and the wide range of channels of information, informal as well as formal, open to them and to their immediate advisers. February 2003 Battle over force size As the military mobilizes for a war in Iraq, the internal debate being waged in the Pentagon over troop size becomes public.
