Timeline: A history of education

The curriculum often included industrial occupations as well as the basic educational skills. It is time we started raising the standard. The poorest of the working class did not, he assured the committee, send their children to these schools.

An overview of the Welsh education system

Whilst identifying a number of strengths in the current education system—for example, the early years Foundation Phase and the commitment to Welsh language and culture—the report identifies significant shortcomings in the current curriculum arrangements, which essentially remain as devised in 1988 when it shared a national curriculum with England, predating the devolved education system. Many of these inventions made work easier and cheaper. The third wave of Welsh colonisation, thus, was not conducted by military means.
