This appears to be an edition of the book that someone printed at their local Kinko's. The book was good, but I couldn't sympathize with any of the characters, and the ENDING! John often plays truant; one day, when his father catches him, he drags him to the school and throws him at the headmaster. Brown introduced character after character that was not someone I would ever, ever want to spend physical time with although some of them were amusing, and many had odd little quirks that made observing them worthwhile.
