JM

Q-mode cluster analysis was calculated with the free software package Paleontological Statistics PAST; Hammer, 2013. A detailed study on Recent Ostracoda was carried out in twenty-six surface sediment samples collected from shelf region of the Southwestern part of Bay of Bengal. Focused on their habitat, L.

of Antarctic Marine Species (RAMS)

Also, dissolved oxygen ranges from 6.

Pontocyprididae

The purpose of this study was to report the Holocene ostracod assemblages from the Co To Islands, northeastern Vietnam, and discuss their paleobiogeographic and paleoenvironmental significance. Wikipedia citation Copy and paste this code into your Wikipedia page.

Anchialine Cyprididae (Ostracoda) from the Galapagos Islands, with a review of the subfamily Paracypridinae

Thalassocypridine Ostracoda from anchialine habitats of Jamaica. Callistocythere arcana Bonaduce et al. Bulletin of the British Museum Natural History, 41, 235-251.

JM

Callistocythere arcana Bonaduce et al. The shallowest assemblage I from 10 to 80 m water depth is characterised by Hemikrithe Orientalis, Pterygocythereis chennaiensis and Lankacythere multifora which are associated with sand to slightly muddy sand. C, 28: 37—76, 12 figs.

Propontocypris attenuata

Preliminary harmonic analysis of the outlines of recent macrocypridid Ostracoda. Trinh 4, and Minh T. Remarks: The valves of Genus Paradoxostoma are thin calcified and nearly smooth.
