Curriculum, Instruction, and Assessment

The second stage provides the resources and tools for planning purposeful, rigorous lessons that advance students through the Levels of Learning in every lesson. Then, let them dig into the content in an exploratory phase that takes them deeply into rich content. The verbs chosen can also help to make the ILOs more specific.

ERIC

Staying descriptive is the single most difficult skill to develop in teacher-driven observation. Formats for small-group in-class exercises and the one-minute paper.

Curriculum, Instruction, and Assessment

Measuring outcomes that look for changes in attitudes or values rather than specific behaviours can be even more challenging. Strategy Alert 3: Instructional Rounds and Learning Walks Instructional Rounds and Learning Walks are regular and structured visits to classrooms to observe strong research-based conditions for success.

Shifting the Focus from Teaching to Learning

Origins, validity, and application of the online peer rating system for cooperative learning teams that is part of the CATME Smarter Teamwork suite of tools. Why does Smart Sparrow care? Phi Delta Kappan, 83 6 , 440—448.

5 Basic Principles Of Instructional Systems Design

Research has established that leadership is second only to teaching among school-related influences on student success.

Writing Intended Learning Outcomes

A word of caution: keep your look-for list to 5-8 items. Each SLC has its own budget, based mainly on the number of students it has, and makes

all its own decisions about hiring and firing of its staff, including its principal or lead teacher.

How is COVID

As teachers carried out these strategies, they leveraged teacher-driven observations to monitor their implementation. .

How to Analyze Learners

It involves researching and testing learning in real world situations, guided by constructivist, social-constructivist, socio-cognitive, and socio-cultural theories of learning. Unless this outcome is for an introductory composition course, the problem with write an essay is that it is too vague to be easily assessable. EdTech allows teachers to provide multimedia to address diverse learning styles, such as animation, live video, etc.
