The MRM underground sampling database and the Sable borehole database data were used for resource estimation. We entered the harbor at about 0200 hours on October 23, undetected and caught the Japanese Fleet at anchor except for destroyers on sentinel duty on the entrance.

## **Columbia River Treaty**

We will not break it now. It is transported to eastern Canada and the United States through two major oil pipeline systems, both originating at Edmonton; one extends east to Toronto, and the other southwest to Vancouver and the state of Washington. Typically, the additional analytical work involved in the QAQC program was greater than 10% of the basic analytical requirement for a project.
