Essays on a mature economy : Britain after 1840 : papers and proceedings of the Mathematical Social Science Board Conference on the New Economic History of Britain, 1840

McCloskey here pursues the logic of rational expectations, modern finance, and Austrian economics into its wider cultural implications, showing that storytelling is fundamental to economics, but strictly limited by the principle of what she calls the American question, If You're So Smart. .

The British Industrial Decline

A Bibliography of Historical Economics to 1980, Cambridge University Press, 1991, pp. McCloskey's sweeping, charming, and even humorous survey of ethical thought and economic realities--from Plato to Barbara Ehrenreich--overturns every assumption we have about being bourgeois.

‘The Landscape and the Machine’: A Comment, Economic History Review

McCloskey has brought together leading economic historians who show that commonly accepted perceptions of our economic past can be wrong and, therefore, misleading.
