Tales of Hans Christian Andersen: Candlewick Illustrated Classic by Hans Christian Andersen

Some of these are excellent The Little Mermaid, The Emperor's New Clothes , some are entertaining The Ugly Duckling, Shadow , some are downright heartbreaking The Little Match Girl, Snowman , but then there are some that are tedious and boring The Ice Maiden, Traveling Companion. It also has a nice message of that everyone has a place where they belong. Schwartz's versions of The Shadow and The Snow Queen were later made into movies 1971 and 1967, respectively.

The Little Match Girl- 5 stars Speaking of Charles Dickens, this gorgeous and heartwrenching story is H. He does it as a poet, not as a moralist or a philosopher; he does it with humour, irony, tenderness or melancholy. Many other aspects of the author's life feed into his stories, which were quite an eye-opener to read.

It is common knowledge that he was influenced by folklore and the stories told to him by his grandmother, but he was also influenced by the German writers that predated him or who were his contemporaries.

But this collection shows that many of his stories are not that great. Yet even battling all his worries, Hans Christian Andersen managed to find his voice and write his stories. These fairy stories are probably by the only author for whom my personal rating of works varies between one and five stars.

I grew up reading this book and I'm sure it'll be valuable for all future generations. It's a very well put together selection of Andersen's fairy tales, I'm assuming, and the introduction is quite interesting! Excuse me I didn't get much sleep last night, there was something poking my back under my 20 mattresses. You can look up his sculptures online.
