Bangladesh Economy: Prospects & Challenges

Backward Integration RMG industry in Bangladesh has already proved itself to be a resilient industry and can be a catalyst for further industrialization in the country. . Some countries have shown interest to invest in deep sea port project in Bangladesh.

Revitalising Exports

Public investment to GDP ratio increased while private investment to GDP ratio decreased. Bangladesh is a leading voice among least-developed Members in the WTO as regards their specific needs and concerns as well as the difficulties they face. Economies with strong trade or financial linkages to the euro area and those heavily dependent on services and tourism have been hardest hit.

Problems and Prospects of Readymade Garments Export in Bangladesh

The employment of an uneven number of unskilled labors by the garment factories results in low productivity and comparatively more expensive apparels. The industry plays a key role in employment generation and in the provision of income to the poor.

The current state of the banking industry in Bangladesh

The sample garments companies who are interviewed are given in a chart: Name of the Garments Company Millenium Garments Limited RAHAN GARMENTS PVT LTD ALAM FIBER IMPEX Ltd. National labor laws do not apply in the EPZs, leaving BEPZA in full control over work conditions, wages and benefits.

The current state of the banking industry in Bangladesh

The events in 1998 serve to highlight the vulnerability of this industry to both internal and external shocks on the demand and supply side. Political

Instability: Bangladesh is not a stable country politically. Once our exports lose global market share, recapturing the same will not be easy.

Bangladesh Economic Outlook 2019: A resilient economy in need of sound policy

For this reason the seller of our country should ensure any kinds of security they needs and also provide them other facilities what they needs. More than one third of Bangladesh's population of 127 million still lives below the poverty line, and more than half is classified as poor.

The current state of the banking industry in Bangladesh

At the same time a recent WTO review points out that Bangladesh has not been able to exploit fully the duty free access to EU that it enjoys. This way, product development and training in the workplace will be combined, giving both short term and longer-term effects. Not to mention BD even does not have well irrigation network like Pakistan enjoys.
