Your host James Cook University welcomes you to the tropics to engage in conversations about these issues and about many others which confront our disciplines. The pollen record reflects little change in the vegetation despite the shifting fire regime, highlighting the importance of multi-proxy approaches to reconstructing past environments in tropical northern Australia where vegetation is adapted to fire.

Barriers, Borders, Boundaries: proceedings of the 2001 Australian Archaeological Association Annual Conference

Culturally and chronologically, the volume surveys the depth and breadth of Australian island societies, including studies of late Pleistocene island use in northwest Australia, late Holocene deltaic island societies of Papuan lowland rainforests, early-to-mid-Holocene tropical island use of Torres Strait and the Great Barrier Reef, and Holocene selective occupation and abandonment of Bass Strait and other Southern Ocean islands.
