'Fire', Peter Kinley, 1982

Engaging with photography and video, his pictures deliberately confuse painting's ontology. Behind the simplicity of Kinley's subjects and style lie evident struggles: seeking the essential shapes of things from memory, it often takes a whole series to get it right. Please go through photos for more details on conditions and age; Color will be different depends on your screen.

Other memories were of a spell in an isolation hospital recovering from scarlet fever, of seeing the great transatlantic liner, the Deutschland, in Hamburg harbour and of summer visits to Gross-Hansdorf, in those days an unspoiled North German village of thatched houses, unmade roads and grazing cows, where his aunt and uncle, an artist named Tonsfeldt, lived. The work is presented unframed.

Peter Kinley

He was a solid student and joined the army in 1944 at the age of seventeen.
