Streaming students in school is a long

Because of this, students may never have the opportunity to take a class with a student from another track.

Streaming in Toronto and other Ontario schools (1980 edition)

But is streaming as good or bad as people seem to think it is, or is the answer less clear cut? Indeed, some scholars, including Irvin Waller from the University of Ottawa, have argued that government resources need to be gradually diverted from law enforcement and corrections efforts into an effective crime prevention strategy see Waller, 2006.

Preventing Youth Crime and Violence: A Review of the Literature

Clearly, proper evaluation is crucial for the development of an effective, evidence-based strategy to reduce youth violence. Sadly, this is particularly true of programs that have been implemented in Canada. However, unlike proven programs, promising programs may not have been evaluated using the most rigorous scientific standards, they may have produced inconsistent results, or they may not have been replicated in different types of communities.

A Note on Program Evaluation The discussion in this report is based on an extensive review of government reports and the peer-reviewed academic literature on crime prevention. However, evaluation results indicate that these programs have either no impact or a negative impact on violent behaviour and youth crime. Chapter Four reviews the literature on deterrence strategies — including harsh punishments for young offenders.
