### By day

The halakhah attaches great importance to the day-and-night cycle. The LORD shall preserve thy going out and thy coming in from this time forth, and even for evermore.

### Day and Night World Map

His knights grow riotous, and himself upbraids us On every trifle. The winter solstice in the Northern Hemisphere is the shortest day, after which daylight hours grow longer.

**Psalms 19:2 Day after day they pour forth speech; night after night they reveal knowledge.**

The solstices are the positions of the Earth's orbit that mark the longest and shortest days of the year.

**Hymn: Day by day, and with each passing moment**

The sun shall not smite thee by day, nor the moon by night. O God, when You went out before Your people, when You marched through the wasteland, Selah You led Your people like a flock by the hand of Moses and Aaron. By day you led them with a pillar of cloud, and by night with a pillar of fire to give them light on the way they were to take.
