In other words, both infusion guide wire 1002 and leading guide wire 1003 are grasped near the proximal end of infusion guide wire and advanced into guide catheter 401 until leading guide wire 1003 pierces the wall of right auricle 108.

Thorpe v. Housing Auth. :: 393 U.S. 268 (1969) :: Justia US Supreme Court Center

We make no warranties or guarantees about the accuracy, completeness, or adequacy of the information contained on this site or information linked to from this site. Any method that forces needle catheter 402 through the atrial wall by applying a large pushing force may have a higher risk that the catheter may go through the wall and damage other heart tissue or even a coronary vessel within the pericardial space.
