Singularities and Complex Geometry

Wang On the singularity of the boundary of a convex domain admitting a non-compact automorphism group by B. Jacques Faraut, Soji Kaneyuki, Adam Koranyi, Qi-Keng Lu, Guy J Roos A number of important topics in complex analysis and geometry are covered in this excellent introductory text.

Singularities and complex geometry : Seminar on Singularities and Complex Geometry, June 15

Ishii An algorithm to produce the structure sequence of arrangement by G. .

47047447

Guo Chern root algorithm and local index theorems by Y. Yau Value distribution theory of holomorphic curves into complex projective algebraic varieties and geometric Diophantine problems by R. Tan A generalized Chern-Simons formulas by S.

47047447

Yu Notes on the codimensions of smooth map-germs and the related results by G. Yu Schwarzian derivative of holomorphic mappings by Q.
