The Land of Dragons and Emperors

This book was fascinating and made me want to learn more. Without a doubt, she succeeds, as she draws the readers into the world of silk, warlords, and dynasties.

Children's Book Review: China: Land of Dragons and Emperors by Adeline Yen Mah, Author . Delacorte \$17.99 (240p) ISBN 978

If knowledge acquired from history is the truest education, then this book is the best present I can give you. After reading this book you will find that China is a brilliant country with brilliant people! I processed this book into the library collection last week but never really considered reading it until this year when the students began working on an Ancient China assignment and our collection was coming up rather short. I'm reading some of this aloud, and the KitKatPandaBatWolf is also reading this to herself.

China: Land of Dragons and Emperors by Adeline Yen Mah: 9780385737494

Examples of those symbols are the primary Chinese colors and unlucky numbers. In chronological order, she goes on with the dynasties following the first and their significant roles in China's history. Black and white photos, illustrations, and maps supplement the text.

China Land of Dragons and Emperors

After this introduction, the author then writes about several Chinese dynasties until there was a Communist government. I finally got the dynasties clear, as well as China's history in general.

China: Land of Dragons and Emperors by Adeline Yen Mah

It allied with I processed this book into the library collection last week but never really considered reading it until this year when the students began working on an Ancient China assignment and our collection was coming up rather short.
