Adjusted EBITDA is used by management to measure operating performance, and management also believes it is a useful indicator of our ability to meet debt service and capital expenditure requirements.

View

The DEIS lacks a discussion about existing coal I 2 DEIS at 1-8 to 1-9. On 22 May 2007, EPA finalized the Exceptional Event Rule 40CFR50 and 40CFR51 which has many of the same features as the previous policies that preceded it and should be appropriately referenced in this section. Similar provisions govern three coal leases with the Navajo and Hopi Indian tribes.
