

# Public policy analysis – a political economy approach

Houghton Mifflin – Public Policy and Political Economy

Department of Political Studies and Public Administration 175		
PSPA 345	Special Topics in Environmental Policy and Politics May be repeated for credit. Occasionally.	3.0; 3 cr.
PSPA 346	Special Topics in Natural Resource Policy and Politics May be repeated for credit. Occasionally.	3.0; 3 cr.
PSPA 350	Foundations of Organization Theory This seminar is an advanced study and analysis of the development of organization theory, from its foundations and origins up to the present. It takes an interdisciplinary approach that involves the key critical readings and debates, with their different levels of abstraction and analysis, as well as their lasting contributions. It also discusses the contemporary research activities and findings in the field of organization theory. Core course. Annually.	3.0; 3 cr.
PSPA 351	Foundations of Public Administration This seminar is an advanced study and analysis of the field of public administration, from its foundations and origins up to the present. It covers topics such as historical public administration, the traditional modes of public administration, new public management, and administrative public administration. The course will also review contemporary research activities and findings related to public administration. Core course. Annually.	3.0; 3 cr.
PSPA 352	Foundations of Public Policy This seminar covers topics related to the substance, methods and frameworks of public policy in a variety of disciplines including welfare economics, political science, political economy, and organization theory. Emphasizing the role of theory in public policy research, the course discusses the various policies and policy challenges in the following substantive areas: economics; education; the environment; national security; and immigration. Core course. Annually.	3.0; 3 cr.
PSPA 360	Public Policy Research and Analysis This seminar provides an introduction to policy analysis typologies, policy tools, and the factors that shape the utilization of policy analysis. It is designed to give students the theoretical and practical exposure to the process of the analysis of public policy as well as to its relevant qualifications, norms, and moral method approaches and techniques. Annually.	3.0; 3 cr.
PSPA 361	Public and Non-Profit Program Evaluation This seminar introduces students to the theoretical and practical foundations underlying the use of program evaluation in the public and non-profit sectors. Based in large part of the logic model process of program evaluation, it reviews the quantitative and qualitative techniques used by managers to analyze program processes, outputs, and outcomes. It also considers issues such as client management, data collection, data presentation, and research ethics. Annually.	3.0; 3 cr.
PSPA 362	Public Policy and Administration This seminar covers topics and frameworks related to the substance and approaches of public policy in relation to public administration. Students will engage in a serious analysis of the economic, social, and cultural assumptions that underpin government and its relationship to the public. The course is also designed to give students an organized opportunity to investigate their own interests within a specific key policy area. Annually.	3.0; 3 cr.
