Victim-offender mediation programs are one part of a larger diversion movement in juvenile justice that has been gaining attention worldwide—the restorative justice model. In some cases, these new laws saddled children with the most severe sentences—death and life without the possibility of parole. These are the types of treatment and rehabilitation programs offered in many intensive after-care programs.

Observers recorded more than 7,000 encounters involving approximately 12,000 citizens. Individual counseling, teaching of interpersonal skills and insight into their own behavior, and behavioral programming were most successful for the nonincarcerated offenders. Probation is essentially surveillance designed to prevent reoffending, with the threat of punishment and to detect reoffending if it should occur.

## The Juvenile Justice System

Findings on recidivism for juveniles who have been part of mediation programs are mixed.

Juvenile courts processed nearly 1. Since the establishment of the first juvenile court in Cook County, Illinois in 1899, states have recognized that children who commit crimes are different from adults; as a class, they are less blameworthy, and they have a greater capacity for change. At the same time the federal agenda and the voices of reformers were calling for deinstitutionalization procedures and more prevention, the states seemed to be moving in the opposite direction Schwartz, 1989.

In fact, the term juvenile justice is often used synonymously with the juvenile court, but it also may refer to other affiliated institutions in addition to the court, including the police, prosecuting and defense attorneys, probation, juvenile detention centers, and juvenile correctional facilities (Rosenheim, 1983). They were not to be accused of specific crimes.
