The volume included a scornful letter from Alfred Douglas charging Gide of misrepresentation. Det hænger sammen med en tidlig kristen afhandling om dyresymbolik med navnet , som havde stor indflydelse på vesterlandsk kultur.

Løve

In West and Central Africa it is restricted to fragmented and isolated populations with a declining trajectory. For the past decade lion populations cause of cub mortality.

Løven er det eneste medlem af kattedyrsfamilien som udviser tydelig — at hanner og hunner udseendemæssigt er meget forskellige. Leopard er bruger også sådanne taktikker, men har den fordel at de har nemmere end løver eller geparder ved at overleve på mindre byttedyr. *Journal of Zoology London* 160:497— *Management* 38:459—472.
