This edition was published in 1982

Filesize: 45.83 MB

Tags: #Ovarian #Epithelial, #Fallopian #Tube, #and #Primary #Peritoneal #Cancer #Treatment #(PDQ®)

Twenty

The accuracy of the frozen section diagnosis of BOT is very limited.

Interdisciplinary Screening, Diagnosis, Therapy and Follow

Some ovarian, fallopian tube, and primary peritoneal cancers are caused by inherited gene mutations changes.

Clinical management of borderline tumours of the ovary: results of a multicentre survey of 323 clinics in Germany

The proliferation was low to moderate and focally pronounced, so that the risk of recurrence was deemed to be low.

Tumorzentrum München

Sklerosierender Stromatumor des Ovars: selten. See the PDQ summary on for more information.

Mediation analysis of the relationship between institutional research activity and patient survival

Others 6% would prefer a combination of cisplatin and taxanes. Ovarian cancer should always be treated in accordance with published guidelines. Stage II In , is found in one or both or and has spread into other areas of the , or is found within the pelvis.

Gynäkologische Operationen

The S3 guidelines for ovarian cancer state that if the patient wishes to have children and the tumour is limited to the ovary, a fertility-preserving procedure can be carried out.

Ovarian cancer: diagnosis and treatment

Dieser Titel erschien in der Zeit vor 1945 und wird daher in seiner zeittypischen politisch-ideologischen Ausrichtung vom Verlag nicht beworben.

Gynäkologische Tumoren

A doctor or nurse inserts one or two lubricated, gloved fingers of one hand into the vagina and presses on the lower abdomen with the other hand. Since our patient explicitly requested hormonal ovarian stimulation but was not at the beginning of her menstrual cycle when she presented to our endocrinological reproductive medicine out-patient department, after an in-depth consultation, we decided to initiate hormonal ovarian stimulation in the luteal phase starting on day 18 of the cycle in accordance with the stimulation protocol published by Wolff et al. Der Frauenarzt oder Hausarzt kann bei einer Routineuntersuchung beim Abtasten des Bauches einen Knoten spüren.
