COVID

Is there a threat of new competitors entering the market? The Guiana Shield, which includes Guyana, Suriname, and French Guiana, is thought to have drifted from its initial landmass in West Africa and contains large stores of oil and natural gas, much like the waters off Nigeria, Gabon and Cameroon. The first seven had left for the country on 3 July. The main investing countries are the United States, Belgium, and the Netherlands.

SICE: Investment: National Legislation and Sources

One of their employees had been in contact with one of the nine cases diagnosed on 22 April in , French Guiana.

Multi

Deaths 166 Government website The COVID-19 pandemic in Suriname is part of the of COVID-19 caused by SARS-CoV-2. The first two chapters of the report feature the country profile by giving general information on Suriname and by thoroughly studying its economic state, including key macroeconomic indicators and their development trends. On 20 April, Cleopatra Jessurun, Director of the Ministry of Health, announced that the last three patients were in a healthy condition and would be released after they test negative twice for the virus.

Fisheries and aquaculture

The low level of investment in Suriname, despite its rich natural resources, can be explained by the country's poor business environment. The government has extended powers like taking vacant buildings and offices for the use of quarantine.

Suriname

The process of change is coming from external and internal sources, ranging from the potential for major commercial oil finds in its offshore waters and migration of Chinese, Haitians, and Brazilians into the country to the looming 2020 elections and the need for better governance.

FIS

In terms of structure, the export of commodities plays a major role in terms of exports and state finances, accounting for over 80 percent of the former and between 25 to 30 percent of the later. Specific details were sparse but it would have Surinamers voor Surinamers SU4SU included in the efforts.
