Five are contacts of a case and one is under investigation.

Ontario Provincial Police

This is a reminder that serious illness can occur at any age and evidence indicates that variants of concern can be associated with more severe illness and increased risk of death. Consistently following the public health measures when providing services to clients and working with colleagues can reduce the spread of COVID-19 and protect our communities. Although some agencies have modified their business practices due to health and safety concerns, their core services will continue.
