Introduction and Overview to World War I

Airplanes were first used for , to take pictures of enemy land and to direct.

Teaching World War I

The civilian leaders who overruled Ludendorff became scapegoats for both the army and Ludendorff himself. The German offensive finally ended on 14 June when the Allies were able to bring mustard gas into play.

World War I: Summary, Causes & Facts

Before the war, European countries had formed alliances with each other to protect themselves. Most of the countries in Europe sought to increase their military power and reserves by of young men into the army and the training of more soldiers.

Teaching World War I

The Germans invented special tactics to infiltrate enemy positions, but they also were too little, too late.

World War I: Aftermath

In the case of attacks on a member, those in the alliances would rise to their defense.

World War I

Thus began the expansion of the war to include all those involved in the mutual defense alliances.

World War I: Causes and Timeline

But gas had been proven to work, and it gradually became a common feature of the war. There was more movement on the Eastern Front with

some major victories, but there was nothing decisive and the war carried on with high casualties.

National WWI Museum and Memorial

One of these was the organization.
