I am delighted that this book will make Father Congar and his writings better known in Ireland and indeed in the English-speaking world. We were at the service of the bishops, in a technical sense, but this also provided the context in which to make suggestions to the bishops which often happened. Congar was a peritus expert at the Council and was to become one of its most influential architects.

Theology, for New Blackfriars is ecumenical. Although he felt and expressed unease at some of the views of this somewhat radical group, Congar apparently wished to retain contact with them, perhaps in the hope of having some influence with them.

Church renewal is, however, no less imperative for this, not primarily as a means to bring back the lapsed, but in order for the Church to be true to its own mission and its own tradition. Congar was, in the true sense of that word, a traditionalist theologian, seeking to correct a more limited and fortress-like nineteenth-century vision of the Church by appealing to an older and more missionary and more Catholic vision.

The layout of the book is also to be commended, not least the fact that it uses footnotes rather than endnotes, making it easier for the reader to check references or see the clarifications that the author is adding to the main text as he progresses his argument.

Address by Cardinal Cahal B. Daly at the launch of “Yves Congar’s vision of the church in a world of unbelief”

This experience of war brought him into close contact with his compatriots and proved to be a unique opportunity that enriched his theological writing.
