The process was made profitable in 1960, and in the early sixties plants were licensed throughout the world, including in Japan.

Vintage & New Japanese Screens and Room Dividers

While frames can be produced with minimal hand tools, specialized hand tools, power tools, and for cutting identical lengths and angles speed the process. This is a great privacy screen.

40 DIY Indoor Privacy Screens

Its actually a vintage window. Rigid translucent panels cannot readily be spliced; one continuous sheet must usually be used per frame. Here is a charming privacy screen.
