For example, in a district in which there are only three members to be elected, a party must gain at least 25 per cent +1 of the vote to be assured of winning a seat. Examples of how different electoral systems have worked as tools of conflict management are given throughout this text. For example, the states in the USA, Brazil, and Australia, the Länder in Germany, and the provinces in South Africa are all separately represented in an upper house.

In addition to the choice of electoral system, there are also a number of other strategies that can be used to increase the number of women representatives. This cannot be avoided completely, and the planners of change cannot sit back when legislative changes are in place. One example is that US researchers have shown that US states that use the initiative process are more likely than those that do not, to have introduced governance reform policies e.

Elections in South Africa

The results of the 2011 election in Liberia led to violence when the candidate from the opposition, Winston Tubman, called to boycott the second round alleging fraud during the first one. In the vast majority of the cases, changes have been made on the margins, with a new seat allocation formula, a new number of electoral districts, or an extra few appointed members in the legislature; but many countries have also gone through reform processes that have altered their electoral system completely. This article was co-authored by our trained team of editors and researchers who validated it for accuracy and comprehensiveness.
