WORLDVIEW

Organizations need rapid operational awareness in order to make decisions that impact time, resources, and lives. Effectively communicating sustainability and facilitating the multi-stakeholder dialogues that are necessary for transformative innovation is greatly aided by a more integral understanding of the different worldviews and value systems we might encounter in our work.

Ball Aerospace

People can choose to call this whole or all, the Cosmos, Universe, Life, the One, Nature, consciousness, the Divine, the Beloved, or God, as it is named in many languages and beliefs.

WorldView

The satellite has a revisit time of less than 1 day and collects up to 680,000km² of images each day. In 19 July 2016, Worldview-2 was involved in a debris-causing event, but the satellite remained operational. WorldView-3 enhances our industry-leading constellation with the addition of 8 high-resolution SWIR bands as well as the 12 bands of CAVIS.

Geocento

For ongoing operational tasks, our satellite imagery solutions are ideal for fast, informed analysis. Our high-resolution multispectral imagery provides organizations with very detailed information about what is happening on the ground across a wide geographical region.
