### Did the US Air Force actually build a flying saucer?

It was not a balloon, I can say this unequivocally. Smith pondered why the former army officer retained the journal, and there was speculation over whether it may have contained a code.

### Flying saucers are real and interplanetary

And now he's sharing it with the world. A rough calculation shows that for such a lift during this time, a force of more than 20 G 20 times more than gravity would be required.

### Saturday Night Uforia: Donald Keyhoe

The point is that Marcel was backed up by other high-ranking officers and many civilians who were part of the case.

### Roswell UFO crash: What is the truth behind the incident?

But he hissed like a scalded cat, swept over the Organ Mountains behind us, and disappeared. Then the sound grew louder and the UFO flew away.

### Did the US Air Force actually build a flying saucer?

If you want the information Keyhoe wrote in his version of his book, then be warned.
