## Environmental Sustainability of Canadian Agriculture: Agri

Additional questions in the long form census were asked to determine classification, with regard to Indian status, First Nation or Indian band membership, and residence on an Indian reserve or settlement. In 2016, women and girls accounted for 51. Description of Figure 9: Average employment score, First Nations and non-Indigenous communities, 1981 to 2016 This line graph compares the average employment scores, a constituent of the labour force activity score, of First Nations and non-Indigenous communities in Canada between 1981 and 2016.

## Census of Canada

Information on average household size was taken from the census. They are an invaluable source of information for genealogy research. Readers should note the high percentage of unique languages in the province of British Columbia alone, as well as the diversity of geography in this and other regions.

## Environmental Sustainability of Canadian Agriculture: Agri

Canada further declared that the UNDRIP would be fully implemented into Canadian law, including Article 19 on requirements of states to obtain the free, prior and informed consent FPIC of Indigenous peoples on any decisions that would impact them. Figure 2 provides additional evidence to this effect and demonstrates that very few communities fluctuated more than 10 points from 2011 to 2016. When to Use this Tool? Aboriginal peoples in Canada: Key results from the 2016 Census.

## Canadian Dwarf Sour Cherries

It allowed for regional priorities to be addressed and produced a feeling of ownership of the results and an interest in the findings.
