The Clactonian flakes generally exhibited large, massive, un-faceted striking platforms and prominent positive bulbs of percussion.

The geomorphology of a part of the Middle Thames forty years on: a reappraisal of the work of F. Kenneth Hare

Middle Palaeolithic: The Middle Palaeolithic period is differentiated mainly from the typological point of view where the presence or absence of hand-axes or biface is critically important.

The geomorphology of a part of the Middle Thames forty years on: a reappraisal of the work of F. Kenneth Hare

The apart from this, fossil human remains have been discovered in direct association with this cultural level. Perigordian Culture: This culture is named after a site of Perigord region in southwestern France. For this was a wholly new foundation that variously served military, mercantile and latterly administrative needs, though its original function and status are the subjects of continuing and lively debate eg see Merrifield 1983; Creighton 2006; Sheldon 2014; Wallace 2014 etc.
