Timers can be sent via email or AirDrop on iOS devices. A brief portion of the sequence appears as the film's final shot, which Arthur recounts as he dies.

Seconds (1966 film)

The earliest spring-driven timepiece with a second hand which marked seconds is an unsigned clock depicting in the Fremersdorf collection, dated between 1560 and 1570. Charlie offers Arthur the same opportunity, and provides him a secret address to the Company.

Seconds (1966 film)

It had a pendulum length of just under a meter which gave it a swing of one second, and an escapement that ticked every second. Multiples of seconds are usually counted in hours and minutes. The theme of the film -- getting away from your old life, having all responsibilities and demands disappear, and to be installed into your dream career without any effort on your part -- sounds like the perfect solution for many people these days.

Seconds (1966 film)

The metric system unit becquerel, a measure of radioactive decay, is measured in inverse seconds.

Seconds (1966)

The Dionysian-themed party sequence was shot on location with a handheld camera in Santa Barbara, California during an actual annual wine festival held there.
