The motto is motivating intelligence for social change.

NSA

Gifted, talented, or educationally disadvantaged? Because of regulations, students must be 16 or older on the first day of camp.

Teaching mathematically talented students: a cross

That means that gifted and talented mathematics students have, among other capacities, the ability for rapid and broad generalization of mathematical relations and operations, and flexibility of mental processes. Thus, certain traits should be evident in potentially gifted young children, while others are developed through instruction.

Summer Institute for the Gifted

Open to rising 1st — 12th graders. Rubrics can be quite useful in IEP assessment.

Summer programs

The program is open to rising 1st-7th graders. Many teachers also include an assessment of the student's proficiency in each of the nine areas of the Expanded Core Curriculum, or ECC. High school sophomores and juniors will be placed with a researcher for a hands-on science experience,

while being exposed to various careers in biomedical research.

Summer Institute for the Gifted

Research on university gifted students is quite limited.

Summer Programs

My 12-year old son liked it very much. I had to be comfortable alone because I wasn't accepted into a group, because they saw me comfortable alone, etc. As some researchers underlined, the biggest challenge in gifted education is to extend the traditional investment in the production of intellectual capital to include an equal investment in social capital, innovation and the development of leadership capabilities e.
