Talk by Dr. Jacob Birken in Architekturschaufenster „The Damndest Finest Ruins.“ Die kalifornische Stadt und die Katastrophe

America had become a Pacific power, and San Francisco was perfectly positioned to take advantage of it.

The damndest finest ruins (Book, 1959) [sdk.mavlink.io]

Even the people were the best. There were no zoning laws. We did get dressed, and had our breakfast in the house.

The Death of the Imperial City / As this century opened, San Francisco reigned supreme in all the West. Then the earth shook, the sky burned, one era died and another was born.

And now it appeared to be dead.

Bully ruins - bricks and wall - through the night I've heard you call Sort of sorry for each other cause you had to burn and fall.

The damndest finest ruins (Book, 1959) [sdk.mavlink.io]

Fire escapes were added and the building material of choice became firm basalt blocks quarried locally rather than the bricks and mortar that had crumbled so easily. In New York, an expatriate San Francisco reporter named wrote several long pieces for the New York World, as his hometown burned.
