Introduction to Computer Science (Masters, WS) > Lehrstuhl für Digital Industrial Service Systems

The principles you learn here will be developed further as you progress through the computer science discipline.

CS101: Introduction to Computer Science I

If you have any questions or concerns, please contact harvardx harvard. Personally, to me it's the very Eric Grimson's teaching style which kept me going.

CS50: Introduction to Computer Science

For only a few hours reading it is remarkable for how much it contains. The Java-related concepts you will learn in this unit are in many cases directly transferable to a number of other languages. An excellent introduction to thinking computationally.

CS50: Introduction to Computer Science

A regrade of a programming assignment would involve running the same autograder code that Autolab runs, and that would not affect your grade. On-screen the graphics are difficult to follow with a very small font making it hard to see key characters. Its curriculum, which includes software, hardware and algorithms, resembles that of a one- or two-semester first-year college course or the high school.

(PDF) Introduction to Computer Science

HarvardX requires individuals who enroll in its courses on edX to abide by the terms of the edX honor code.

CS50: Introduction to Computer Science

Learning to code in Spyder is one of the best coding experiences I have had so far, this is because it will automatically indent, fill in colons and hint

you when there are some obvious errors in your code.

Introduction to Computer Science: sdk.mavlink.io

This is the second quarter I've used this book as the textbook for an introduction to programming college course.

Introduction to Computer Science

As long as you carefully read the instructions, the grader accepts your input. If your program does not perform correctly on a particular test case, you will not receive points for that test case. The approach taken by the authors is fairly direct; there is little hand-holding, although there are 100 pages of appendices covering pre-requisites.
