End User Computing Specialist

She has contributed several research papers to various national and international conferences and journals and is a reviewer of several international journals. They're working remotely, on the go, and moving from one project to the next. In addition to the above, unit standards will be utilised to provide depth of specification of the outcomes ranges and the assessment criteria and processes.

End

It aims to develop informed and skilled learners that can apply the acquired skills in any industry and should contribute towards improved productivity and efficiency in the workplace. There is little debate that mobile workstyles powered by the cloud are rapidly becoming the new normal for computing.
