National, Cultural, and Ethnic Identities: Harmony Beyond Conflict. Enlightenment should not be confused with an analytical category. Rather, they demonstrate just how malleable the concept really was.

How the second Vatican council responded to the modern world

Characteristically, the connection between the local and the global was mediated by three fundamental ways in which the nineteenth-century world was transformed: the integration of the world economy, the emergence of a system of nation-states, and the consolidation of imperialism. Pascendi Dominici Gregis states that the principles of Modernism, taken to a logical conclusion, lead to atheism. In Making Modernity from the Mashriq to the Maghreb, edited by Stephen Pascoe, Virginie Rey, and Paul James, 31—54.

The Enlightenment (1650

It needs to be understood as a result of the transnational co-production of knowledge by many contributors around the world.

4 Enlightenment Ideas That Changed the World
