The Process of Corporate Decision Making

Filesize: 45.92 MB

Risk-Return Trade-Off: Working capital management also involves risk-re- turn trade off as it affects liquidity and profitability of a firm.

The Factors Influencing and Importance of Financial Decisions!

A particular financial institution may be liberal for granting finance to large projects but not keen to finance a small project. ADVERTISEMENTS: For instance, financial corporations in India usually insist on maintenance of debt-equity ratio for medium and large scale project as 1. Hence there is a relationship between dividends and capital budgeting on one hand and dividends and financing decision on the other.

How companies make good decisions: McKinsey Global Survey Results

Dividend Decision : ADVERTISEMENTS: A financial decision which is concerned with deciding how much of the profit earned by the company should be distributed among shareholders dividend and how much should be retained for the future contingencies retained earnings is called dividend decision. Personnel Labor is one of the most important costs for a business to be able to securely sustain. Factors that lead to slowness include lack of high-tech solutions, small accounting staff, or even operational constraints.

Financial Decisions by the finance manager, factors affecting

The short term decisions are important for a business enterprise because: i They affect the liquidity and profits earned in the short run. What should be the size of firm? It involves identification of various sources of finance and the quantum of finance to be raised from long-term and short-term sources. Economic condition of the country influences financing decision also.
