What is the top strategy being planned to mitigate risk?

This survey shows that staff think that a higher London Weighting allowance should be the highest local campaign priority for the union. However, London surpasses global trends and its exclusivity reverberates around the world.

King's College London

Long working hours have blighted the civil service for decades.

London campus income advantages 'outweigh increased costs'

The details of any weights will be included in the survey documentation.

All

A 2012 XpertHR survey compared salaries for specific roles in the capital and compared it to the national average.

Cuts for London and arts 'will damage universities and students'

An initial target should be a weighting reflecting the cost of living in Outer London £6,200 , since it is the minimum that would allow someone to access a job anywhere in London. This could be a great idea for teachers to live close to the schools they work in.
