The Fading Miracle: Four Decades of

Market Economy in Germany by Herbert Giersch

Having gradually regained their strength and self-esteem, by the early 1950s Germans were ready to launch their country on the road to full economic recovery. Moreover, France's own plan for postwar economic development presupposed that Germany would not be reindustrialized for a long time to come.

Contrary to its original purpose, the EMS had become a fixed-rate system instead of a system of fixed but adjustable rates.

The Fading Miracle: Four Decades of Market Economy in Germany / Edition 1 by Herbert Giersch, Karl

There is a danger that regional blocs, managed trade, and creeping protectionism will characterize that system economically. Commitment to the Goal of Economic and Monetary Union Just as Germany's immediate postwar economic development must be understood in the framework of European integration, so too must Germany's response to the challenges of the 1970s be seen in the context of the European Community.
