There is an active debate among biomedical researchers about the meaning and importance of race in their research. In a 1992 article, anthropologist noted that anthropologists had generally abandoned the concept of race as a valid representation of human biological diversity, except for forensic anthropologists. What we do not see, however, is the myriad other traits that are distributed in a fashion quite unrelated to the intensity of ultraviolet radiation.

The authors recommended that anatomical education should describe human anatomical variation in more detail and rely on newer research that demonstrates the inadequacies of simple racial typologies. Encyclopedia of Race, Ethnicity and Society.

Race (human categorization)

Brutal conflicts between ethnic groups have existed throughout history and across the world. With the vast expansion of scientific knowledge in this century, however, it has become clear that human populations are not unambiguous, clearly demarcated, biologically distinct groups. Atzlán: A Journal of Chicano Studies.

Race (human categorization)

The Chicano Movement faltered by the mid-1970s as a result of state surveillance, infiltration, and repression by U. She compares mass incarceration to , stating that both work as racial caste systems. Mexicano and Latino Politics and the Quest for Self-Determination: What Needs to Be Done.

Chicano

Philosophy of biology 2nd ed. The X was also a symbolic gesture towards acknowledging one's Indigenous roots while also recognizing the need

to support Indigenous sovereignty. *Art and the City: Civic Imagination and Cultural Authority in Los Angeles.*
