Sant'Andrea della Valle

La cupola ritrae la Assunzione della Vergine. L'autore è Carlo Maderno 1614. The work was disputed by two Carracci pupils, Giovanni Lanfranco and Domenichino.

The interior of the church was completed by 1650, with some changes added by Francesco Grimaldi.

Basilica di Sant'Andrea della Valle, Rome

Sant'Andrea della Valle is located on Corso Vittorio Emanuele, just a few steps from the famed Piazza Navona and was named for the nearby residence of Cardinal Andrea della Valle. This is another great cathedral to see in Rome. The dome, which is Rome's 4th largest, was designed by Maderno while the lantern was overseen by Borromini. Circa le figure degli angeli musicisti intenti a suonare vari strumenti scrive che «la soavità del colore fa sentire la melodia celeste nel silenzio della pittura» paragonando la pittura a una musica e la disposizione delle figure a un'armonia musicale.

Sant'Andrea della Valle Map

You wouldn't have guessed from the outside. Its harmonious Baroque facade was designed by Carlo Rainaldi - cross busy Corso Vittorio Emanuele to take a photo of it. Si perde così tutta la bellezza plastica dell'intero complesso architettonico.

Join the beautiful throngs hanging out in cafés, boutiques, art galleries, and wine bars, or peek at a neighborhood museum or monument. The Baroque facade was added between 1655 and 1663 by Carlo Rainaldi, at the expense of Cardinal Francesco Peretti di Montalto, nephew of Alessandro.
