## Society of Friends and the temperance cause

You can download the book and read it.

## On Kirmānī's Method of Citing Sources in Jawāhir al

A very useful book to have and look at whenever there is a difference of opinion mentioned in al-Qudā' as one will know the preferred stance on the issue. Strictly speaking, philosophy is not so constrained. Tafṣīr is in the 5th year.

## Society of Friends and the temperance cause

Volume 3 discusses laws relating to travel, moon sighting, Masajid, telephones and other issues.

## Hikmat: September 2018

One must know why they are going to read the book and have a clear objective. However, this may also be a significant weakness as it does point to the rather indexical nature of much of the content.

## On Kirmānī's Method of Citing Sources in Jawāhir al

A very beneficial work to use whilst studying. He does mention Tarjā' at times. It discusses the main personalities, books and formation of the Madhhab.
