Environmental Assessment

Pollutants and naturally occurring substances pose a potential risk of having an adverse impact on human health and the environment. Add a Professional Science Master's degree. The online program is equivalent to on-campus programs in structure, expectations and difficulty.

Environmental Assessment

Try a course or two from the Environmental Assessment Program as a Non-Degree Studies NDS student.

Environmental Assessments

The Eastpoint Channel Navigation Project is a part of the Federally authorized Apalachicola Bay Project.

Environmental Assessment

Students typically enroll in 1-2 courses per semester to allow adequate time for work, personal and family activities and requirements of the courses. Students are required to take at least one course per semester Fall and Spring for the duration of the program unless financial aid or other considerations require half-time 4. Many of our graduates use the knowledge and credentials provided by this graduate program to advance their careers as engineers, project managers, policy makers and advisors.

Environmental Assessments

Most of the required course activity lectures, online discussions, assignments occur on a weekly basis allowing students the flexibility to complete the activity as they have time during the week. Professional Project The Master of Environmental Assessment requires completion of a professional project. Program Layout and Administration Administered by the College of Natural Resources CNR , the program requires thirty 30 credit hours, which can be completed entirely online.

Environmental Assessment

Subsequent maintenance of the channel was last conducted in 1984. The EA program provides students with the knowledge and skills to tackle the difficult environmental challenges of the 21st century.
