Gardening

Try to include at least one vegetable that's new to you. That depends... Many folks who experienced large cicada populations in 2011 were left with damaged young trees and bushes where the female cicadas cut slits into tree branches to lay their eggs. If your summers are hot and dry, invest in a soaker hose or dripper line.

Garden Tools, Planters, Raised Garden Beds +More

If weather conditions are right, I can return a few weeks later to find a dozen or two seedlings ready to be transplanted. It's simpler to manage insects and exclude animal pests compared to long garden rows. Tomatoes, for example, include data fields for heredity, fruit shape, etc.

Should Farmers & Gardeners Worry About 17

If you garden in zones 8-10, it may be heat — not frost — that determines your planting dates. Some vegetables, including tomatoes, peppers, squash and corn, are typically planted just once each growing season.

The National Gardening Association

Similarly, enter your zipcode to know when you can expect your You can lookup your , and browse our. Attractive cedar raised beds are an asset to your landscape. Reach your local EMGs via your or by searching online or on Facebook.

The National Gardening Association

Tender seedlings will suffer if they're planted out on a sunny, hot or windy day. Each season, the BBC fields a small team of horticultural expert-presenters.
