Twentieth Century (film)

These travelled in as many as seven sections, of which the first was named the Advance 20th Century Limited. The first modern movie theatre was established in 1905. Man was a solitary, creature of will who at any cost imposed his meaning upon the world because he could not endure a world that did not reflect his central place within it.

20th Century

Journalists known as muckrakers took aim at social ills. Although the had ended in the 19th century, the fight for equality for non-white people in the white-dominated societies of, Europe, and continued.

20th Century

In 1939, they invaded Poland and sparked the beginning of World War II. They were virtually nonexistent at its start, but by the 1990s they seemed to have permeated almost every aspect of modern life. Nevertheless, even as they perceived the difficulties of the present, most Edwardian novelists, like their counterparts in the theatre, held firmly to the belief not only that constructive change was possible but also that this change could in some measure be advanced by their writing.
