Surah Al

It contains some Saheeh ahaadeeth not found in other collections. It also contains highest weak narrations among the Sahi Sittah. All of its narrations are authentic.

Al

Obey Allah and obey the Messenger and those in authority among you. Hencerforth, it was known as the Mosque of Opposition.

About Us

Within it are men who love to purify themselves; and Allah loves those who purify themselves. In this, Yazeed bin Abaan Ar-Raqqashi narrates from Anas.

Sharh Aqidatul

He also sustained a head injury. Ceaseless curse be upon their enemies. Although other editions have comprised additional, yet valuable, information, such additions have been even more than the original material of the book.

Al

During the time of Jahiliyyah, Abu 'Amir was known for being a worshipper and being a notable person among Al-Khazraj. Bukhari and Muslim narrated from him in their Sahih. I leave aside this discussion about the affiliations of the historians, narrators and jurists to the rulers, and that they choose to ignore whatever the rulers wanted to be ignored and that they presented favourably whatever the rulers wanted to be presented favorably.

## **Introduction**

The wordings of the book is preferred to Bukhari Sharif and narrations on one topic can all be found in the same place. It is considered as the most authentic Hadith collection after Sahih al Bukhari. The only style adopted by the author is of description and narration — just as the historical events are described in books of history and just as the ahadith are narrated in the books of hadith — without providing for what he has written, any proof or evidence except by quoting hadith and history.
